EDUCATION

Tecnológico de Monterrey | Guadalajara, México

B.A. Design, Minor in Technological Product Design | August 2020 – June 2024

- GPA: 98/100 (4.0 U.S. Equivalent)
- Received Honorable Mention of Excellence for highest GPA in 2024 design graduating class
- Best Design Student Award & 2-time Best Design Project winner

EXPERIENCE

C3.ai | Product Designer

Guadalajara, México | January 2025 – February 2026

- Led end-to-end feature design of GenAI and GenMkt, two enterprise generative AI products, from concept through shipped features.
- Designed an agentic workflow builder enabling users to create AI-driven processes through natural language.
- Owned the C3 AI Assistant chat component from inception to company-wide standardization, defining interaction patterns and writing comprehensive documentation.
- Contributed to the design system by maintaining the token system and documenting reusable patterns across teams.

Lokki Co. | Design Specialist

Guadalajara, México | August 2024 – November 2024

- Designed end-to-end brand identities and digital prototypes for early-stage social impact startups, translating founder vision into cohesive visual systems and testable product concepts.
- Led user research and usability testing sessions to validate product features and inform design iterations, partnering with cross-functional teams to align design decisions with business goals.

Wizeline | UX/UI Design Intern

Remote | August 2023 – December 2023

- Designed and shipped the mobile version of Wizeline OS, an internal recruitment platform, adapting desktop features into a responsive mobile experience with reusable component patterns.
- Established design system consistency across Wizeline Engine platforms by documenting interaction patterns and UI standards, enabling faster handoffs between design and engineering teams.

SKILLS

Product Design | Enterprise product design, AI product design, wireframing & prototyping, usability testing, design systems & token management, component libraries, information architecture

Tools | Figma (Advanced), AI-assisted design (Claude Code, Claude AI, ChatGPT, Perplexity), rapid prototyping tools (Lovable, Figma Make, Cursor), Jira, Adobe Illustrator

Collaboration | Cross-functional collaboration (PM, Engineering, Data Science), Agile/Scrum, design documentation, stakeholder presentations, design critiques

Languages | Spanish (Native), English (C1)

AWARDS & CERTIFICATIONS

Diseña México | Award Winner

February 2023 & February 2024

UN Climate Action Special Prize student award winner with CALENTAMAX and Product Design student award nominee with SENZ.

University of Michigan | UX Design: From Concept to Prototype

2026

California Institute of the Arts | UI / UX Design

2025

Duke University | Programming Foundations (JS, HTML, CSS)

2025
